Manage benefit programs through integrated reporting

See the whole picture, and the details too

You need **reliable integrated benefits data** from your vendors with an **easy way to gain insights** to manage your employee benefits and population's health.

Benefits Analytic Manager is a comprehensive solution allowing you to **make confident decisions** to get the most out of your benefit plans and programs.

We connect your data

See all benefits information in one comprehensive view

We help you find what matters

Use our simplified reporting so you can easily identify where to focus

We make it meaningful

Optum's data enrichments allow you to spend less time handling data

We give you expert support

Your priorities are our business with a dedicated team to guide you

Get meaningful insights and actionable information to evaluate benefit utilization, understand trends and identify opportunities

See the whole picture – and the details too

Connecting data

Integrating and normalizing data across all benefit types and program offerings provides a **holistic picture of your population's experience**.

You can confidently make **data-driven decisions** looking at all your data together.

We can connect any type of data to create a complete picture of your benefit programs.

Find what matters

Identify where to focus your attention by using our self-service reporting tool.

Create ad-hoc reports or interactive dashboards to review trend and normative comparisons. Use on-demand filters to look at specific populations.

Make it meaningful

Data becomes information using our curated attributes, measures and methodologies. We continually add new items you'll rely on to quickly answer your questions.

Plus, you can evaluate clinical episodes of care, population risk, gaps in care and catastrophic cases all included and available to you.

Expert Support

We'll listen and **understand your short and long-term challenges and objectives.**

We have over 40 years of experience in this market and are your **gateway to Optum experts.**
